SERIES B EURO-DM SECURITIES LIMITED

REPORT OF THE DIRECTORS

The Directors submit their report and the audited financial statements for the year ended 31st December 2015.

INCORPORATION

Series B Euro-DM Securities Limited ("the Company") was incorporated in Jersey, Channel Islands, on 28th February 1986.

ACTIVITIES

The Company holds a thirty year Schuldschein issued by the Bundesbahn (German Federal Republic Railway). The purchase of the Schuldschein has been financed from the net proceeds on the issue of Zero-Coupon Deutsche Mark Bearer Bonds on the Frankfurt Stock Exchange and the sale of a portion of the interest receivable under the Schuldschein.

RESULTS

The results for the year are shown in the Statement of Comprehensive Income on page 5.

DIVIDEND

The Directors do not recommend the payment of a dividend in respect of the year (2014 NIL).

DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing financial statements in accordance with applicable law and International Financial Reporting Standards as adopted by the European Union ("IFRS").

Companies (Jersey) Law 1991 requires the directors to prepare financial statements for each financial year, which give a true and fair view of the state of affairs of the Company and the profit and loss for that period.

In preparing those financial statements the directors should:

- * properly select suitable and apply accounting policies;
- * present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- * provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- * make an assessment of the company's ability to continue as a going concern

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the website. They acknowledge that uncertainty regarding legal requirements is compounded as information published on the internet is accessible in many countries with different legal requirements relating to the preparation and dissemination of financial statements.

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware, and each Director has taken all the steps that he or she ought to have taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

STATEMENT OF PERSONS RESPONSIBLE WITHIN THE ISSUER

The Directors of the Company confirm to the best of their knowledge that the financial statements for the year end give a true and fair view of the assets, liabilities, financial position and profit and loss of the Company as required by the applicable accounting standards. The Report of the Directors gives a fair review of the development of the Company's business, financial position and the important events that have occurred during the financial year and their impact on the financial statements. The principal risks and uncertainties faced by the Company are disclosed in the notes of these financial statements.

INDEPENDENT AUDITOR

Deloitte LLP acted as auditor during the year and have expressed their willingness to continue in office.

BY ORDER OF THE BOARD

Equiom Management (CI) Limited

Dated 18 April 2016

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
SERIES B EURO-DM SECURITIES LIMITED

We have audited the financial statements of Series B Euro-DM Securities Limited for the year ended 31 December 2015, which comprise Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and the related notes 1 to 11. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the company's members, as a body, in accordance with Article 113A of the Companies (Jersey) Law 1991. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2015 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union
- have been properly prepared in accordance with the Companies (Jersey) Law 1991.

Emphasis of matter – Financial statements prepared other than on a going concern

In forming our opinion on the financial statements, which is not modified, we have considered the adequacy of the disclosure made in note 1.1 to the financial statements, which explains that the financial statements have been prepared on a basis other than that of a going concern. The final maturity date of Series B was 3 April 2016, after which any remaining claims under the terms of the Series are to be extinguished. Subsequent to the final maturity date, no further commercial purpose exists for the entity and consequently, the board of directors intend to liquidate the Series as soon as practicable thereafter.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies (Jersey) Law 1991 requires us to report to you if, in our opinion:

- proper accounting records have not been kept by the company,
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

SERIES B EURO-DM SECURITIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2015

1 ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements for Series B Euro-DM Securities Limited ("the Company") are set out below. These policies have been applied consistently to all periods presented unless otherwise stated.

1.1 Going Concern

In accordance with an undertaking dated 2nd July 1986, Commerzbank AG as promoters of the issue of Zero Coupon Deutsche Mark bearer bonds described in note 7, have agreed to reimburse the Company for all expenses incurred. The expenses and corresponding reimbursement are shown in the Statement of Comprehensive Income. The Company expects the reimbursement arrangement to continue until the winding up of the structure on the maturity of the bonds. The Schuldschein and bonds mature on 3 April 2016. Following this maturity, the Directors intend to commence an orderly, voluntary winding up of the Company. The financial statements have therefore been prepared on a basis other than going concern. The directors believe that there is no material difference between preparing the financial statements on a going concern basis and on a basis other than going concern.

1.1.2 Basis of preparation

These financial statements have been prepared under the historical cost convention and in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS").

The Company has acquired a Schuldschein issued by the Bundesbahn (German Federal Republic Railway) from Commerzbank AG, funded by the proceeds of the Zero Coupon Deutsche Mark bearer bonds listed on the Frankfurt Stock Exchange. These bonds are issued with a maturity date corresponding to the payment date on the Schuldschein loan. The Company neither has, nor will have, any other significant assets or liabilities and has covenanted not to enter into any other transactions except in connection with the Schuldschein.

It should be noted that the terms of issue of the Deutsche Mark bearer bonds contain provisions that if changes are made before the final redemption date of the Schuldschein, then the calculation of the amounts due is on the basis set out in such terms.

These financial statements have been prepared keeping in view that the transactions mentioned in the previous paragraphs are not separable. Total income arising from the Schuldschein and total expenses incurred on the financial liabilities (excluding the expenses pertaining to redemption of such liabilities) are recognised in the statement of comprehensive income during the terms of the Schuldschein and Deutsche Mark bearer bonds respectively so as to produce a constant rate of return over their term.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 1.2.

a) Standards, amendments and interpretations to existing standards effective 1 January 2015

There have been no new standards, interpretations or amendments to existing standards which are effective 1 January 2014 that have a material impact on the Company.

b) Standards, amendments and interpretations to existing standards that are not yet effective for the financial year beginning 1 January 2015 and have been early adopted by the Company

The Company has not early adopted any standards or interpretations.

c) Standards, amendments and interpretations issued but not yet effective for the financial year beginning 1 January 2015 and have not been early adopted by the Company.

- IFRS 9, 'Financial instruments', effective for annual periods beginning on or after 1 January 2018.

The Directors do not believe that this change will have an impact on the Company as it is anticipated that it will have been wound up before this effective date.

There are no other standards, interpretation or amendments to existing standards that are not yet effective that have a significant impact on the Company.

SERIES B EURO-DM SECURITIES LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31ST DECEMBER 2015 (continued)

1 ACCOUNTING POLICIES (continued)

1.2 Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

1.2.1 Critical Accounting Estimates and Assumptions

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

a) Amortised cost of investment in Schuldschein and Deutsche Mark bearer bonds

The amortised cost of the Schuldschein and Deutsche Mark bearer bonds are calculated using the estimated effective interest rate. The effective interest rate was calculated throughout the life of the Schuldschein and bearer bonds. The Company used its best judgement in estimating the cash inflows and cash outflows in the calculation of the effective interest rate. The amortised cost of the Schuldschein and Deutsche Mark bearer bonds would be over or under estimated if the actual cash flows were to differ from the management estimates.

1.2.2 Critical judgements in applying the accounting policies

a) Impairment of loans and receivables

The Company follows the guidance of IAS 39 to determine when a financial asset is impaired.

In accordance with IAS 39, the Company assesses at each balance sheet date whether there is any objective evidence of impairment; the determination requires significant judgement. In making this judgement, the Company evaluates among other factors, the financial health and business outlook of the investee (Federal Republic of Germany).

The Directors of the Company have a duty to review for any impairment of the asset for the year ended 31 December 2015 in accordance with IFRS, and to conclude whether the Company would suffer an additional charge for impairment.

The Directors of the Company are of the opinion that the investment is not currently impaired, as the repayment of the bonds occurred on 3rd April 2016, for further information please refer to note 11.

1.3 Financial assets and liabilities held at amortised cost

1.3.1 Classification

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. The Schuldschein is classified as loans and receivables. Financial liabilities arise when the Company has a contractual obligation to deliver cash or other financial assets to another entity. The Deutsche Mark bearer bonds issued by the Company are classified as financial liabilities carried at amortised cost.

1.3.2 Recognition and measurement

IAS 39, Financial Instruments: Recognition and Measurement, requires financial assets and financial liabilities at amortised cost to be measured on initial recognition at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

1.3.3 Derecognition of financial assets and financial liabilities

Financial assets and liabilities are derecognised when the rights to receive cash flows from the assets/liabilities have expired or the Company has transferred substantially all risks and rewards of ownership.

SERIES B EURO-DM SECURITIES LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31ST DECEMBER 2015 (continued)

1 ACCOUNTING POLICIES (continued)

1.3.4 Fair value estimation

Fair values are only provided for disclosure purposes as the Schuldschein and Deutsche Mark bearer bonds are accounted for at amortised cost. See note 3 and note 5 for fair value estimation. The fair value of any financial assets and liabilities that are traded in an active market are determined with reference to the market price at the measurement date. The fair value of financial assets and liabilities that are not traded in an active market (for example, inactively traded bonds) is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Valuation techniques used may include the use of discounted cash flow analysis and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

Due to the inherent uncertainty in respect of the measurement of fair value of both the investment in the Schuldschein and the liability of the Zero Coupon Bond, the estimated fair values disclosed may differ significantly from the realisable value, and the differences could be material. These bonds are issued with a maturity date corresponding to the payment date on the Schuldschein loan. The Schuldschein investment is government backed and the loan originates from an EU member state. This is because Bahn AG, an integrated rail and logistics group, owns and operates the German national rail transportation network and is 100% owned by the Federal Republic of Germany.

1.4 Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

1.5 Functional and presentation currency

The Company has adopted the Euro ("EUR") as its presentation and functional currency, as the Company's primary activity is to invest in EUR denominated securities. The Company has no exposure to currency on its investment, and only minimal exposure to Pound Sterling ("GBP") and United States Dollar ("USD") on its payables and receivables.

Transactions denominated other than EUR have been translated to EUR at the exchange rate ruling at the date of the transaction. Monetary items on the balance sheet have been translated to EUR at the exchange rate ruling at the year end. Foreign currency gains and losses on such transactions are recognised in the Statement of Comprehensive Income.

1.6 Income

Income, which includes interest income and discount on the Schuldschein, is recognised in the Statement of Comprehensive Income using the effective interest rate method over the term of the Schuldschein.

1.7 Amortisation charge

The discount on Deutsche Mark bearer bonds is amortised through the Statement of Comprehensive Income over the life of the total liability using the effective interest rate method.

1.8 Issue costs

Costs necessarily incurred in relation to the issue of the Deutsche Mark bearer bonds are classified as transaction costs. These transaction costs are subsequently amortised through the Statement of Comprehensive Income using the effective interest rate method over the life of the related liability. Any unamortised transaction costs are presented by way of netting from the related liability to which they pertain.

1.9 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

1.10 Bond redemption expenses

According to the terms of arrangement, the difference between the interest instalments receivable on the Schuldschein and the redemption value of the relevant Deutsche Mark bearer bonds will be utilised for payment of costs pertaining to redemption of the Deutsche Mark bearer bonds. Accordingly, bond redemption expenses are recorded at the time when the bonds are actually redeemed.

1.11 Share capital

Ordinary shares are classified as equity.

1.12 Expenses

In accordance with an undertaking dated 2nd July 1986, the promoters (Commerzbank AG) of the issue of Zero Coupon Deutsche Mark bearer bonds described in note 5, have agreed to reimburse the Company for all expenses incurred.

1.13 Segmental Reporting

The Company is deemed to be organised into one activity and geographical segment. No additional disclosures have therefore been included in relation to segmental reporting.

SERIES B EURO-DM SECURITIES LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31ST DECEMBER 2015 (continued)

2 FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: Market risk, credit risk and counter-party risk, and liquidity risk as explained below.

2.1 Financial risk factors

a) Market risk

i) Price risk and Interest rate risk

The overall position and risk is governed by terms of the determined loan document under the Schuldschein and is matched and funded by Zero Coupon Deutsche Mark bearer bonds. The interest rate on the Schuldschein is fixed and therefore interest rate risk is deemed to be minimal.

ii) Currency risk

The Company's presentation and functional reporting currency is the Euro and there is no exchange rate risk on income since the DM was converted to Euro in 2002 at a fixed rate of 1.95583. There is some limited exposure on expenses charged in Pound Sterling and United States Dollar currencies, however these expenses are fully reimbursed in the source currency by the promoter, Commerzbank AG.

iii) Sensitivity analysis

The Company has not provided a sensitivity analysis, given that both interest rate risk and currency risk are not deemed to be relevant as the Zero Coupon Deutsche Mark bearer bonds are fully funded by the Schuldschein. Therefore no sensitivity analysis is required to be disclosed.

b) Credit risk and counter party risk

Credit risk is the risk that the counter-parties will be unable to pay amounts in full when they fall due. The Company's single investment holding is the Schuldschein (as described in note 3), with an actual balance outstanding of €385.78m as at 31 December 2015 (2014; €362.82m). The Company has covenanted not to enter into any other transactions except in connection to the Schuldschein. An impairment review was carried out in respect of the Schuldschein and based on such the Directors are of the view that no impairment provision is required, as more fully described below.

The Schuldschein investment is government backed and the loan originates from an EU member state. This is because Bahn AG, an integrated rail and logistics group, owns and operates the German national rail transportation network and is 100% owned by the Federal Republic of Germany. This is why we the Directors believe the credit risk of the receivable from the related party is deemed to be minimal.

The only other asset subject to credit risk is the receivable from a related party, Commerzbank AG, who is the ultimate controlling party of the Company and paying agent. Given that Commerzbank AG, is a well regulated bank with a credit rating of A-1, Moody's credit opinion dated 28 October 2015, the credit risk of the receivable from the related party is deemed to be minimal.

The Directors have no evidence to suggest that the Schuldschein investment had suffered a decline in fair value below the cost, or that any decline was prolonged or significant. The Directors of the Company are therefore of the opinion that the investment is not currently impaired, although they will continue to monitor the situation, given the current adverse economic conditions. For further information please refer to note 3. Funds from the Schuldschein were received on 3rd April 2016, for further information please refer to note 11.

c) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet the payment obligations associated with its financial liabilities when they fall due.

The Company currently has minimal exposure to liquidity risk as its obligations to meet its liabilities are offset by the investment held in accordance with the terms of the loan agreement. There have been no defaults or breaches to date in relation to financial obligations of the Company.

As at 31 December 2015	Less than 1 year €000s	1 to 2 years €000s	Over 5 years €000s

Trade payables and accrued expenses	18	-	-
Financial liabilities at amortised cost	-	391,905	-

The final amount due on maturity is €391,905,227

SERIES B EURO-DM SECURITIES LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31ST DECEMBER 2015 (continued)

2 FINANCIAL RISK MANAGEMENT (continued)

2.2 Capital risk management

As of 31 December 2015 the Company has an ordinary share capital of €5,000 (2014: €5,000). The Company's main transaction, the acquisition of the Schuldschein was funded through the issue of Deutsche Mark bearer bonds as described in note 5 to the financial statements.

2.3 Limited recourse

There is no limited recourse in place, as the financial assets are not secured on any specific assets of the issuer.

3 LOANS AND RECEIVABLES

This represents an unlisted investment in a Schuldschein issued by the Bundesbahn (German Federal Republic Railway) on 8th April 1986. The Schuldschein, which has a face value of €216,890,016, was purchased at a cost of €207,498,986.

Between 3 April 1986 and 2 April 1996, the Schuldschein yields interest at a rate of 6.1% p.a. due and payable annually. Subsequently, it bears interest in equal instalments of €74,067,940 due on 3 April 2001 and 2006, and €175,030,243 due on 3 April 2016. The principal amount of the Schuldschein is payable on 3 April 2016. Funds for the Schuldschein were received on 3rd April 2016, for further information please refer to note 11.

This investment is recorded initially at fair value and is subsequently measured at amortised cost which is determined after taking into account interest yield, discount amortised and receipts of interest instalments as they become due. Interest on the Schuldschein is recorded and discount is amortised through the Statement of Comprehensive Income in a manner so as to produce a constant periodic rate of return over the life of the Schuldschein.

The Schuldschein is used to provide security for the Deutsche Mark bearer bonds detailed in note 5 below.

The carrying value of the Schuldschein is as follows:

	<u>€000s</u>	
	<u>2015</u>	<u>2014</u>
Amortised cost at the beginning of the year	362,823	341,190
Interest income during the year at effective interest rate	<u>22,957</u>	<u>21,633</u>
Amortised cost at the end of the year	<u>€385,780</u>	<u>€362,823</u>

The effective rate of the Schuldschein is 6.34% p.a. (2014:6.34%). The fair value of the Schuldschein presented in the Statement of Financial Position is estimated to be €391,963,636 as at 31 December 2015 (2014: €391,009,321). The fair value of the Schuldschein was determined in accordance with generally accepted pricing models based on discounted cash flow analysis, with the most significant input being the discount rate. The fair value hierarchy is considered to be level 3.

4 PREPAID EXPENSES

This represents advance payments made in respect of Trustees' and Paying Agents' fees and is amortised through the Statement of Comprehensive Income on a straight line basis over the life of the Schuldschein.

	<u>€000s</u>	
	<u>2015</u>	<u>2014</u>
Carrying cost at the beginning of the year	16	29
Amortised during the year	<u>(13)</u>	<u>(13)</u>
Carrying cost at the end of the year	<u>€3</u>	<u>€16</u>

5 FINANCIAL LIABILITIES AT AMORTISED COST

As explained in note 3 to these financial statements, the Company issued zero coupon bonds and sold its rights to receive interest due on the Schuldschein for the period 3 April 1986 to 2 April 1996 to finance the purchase of the Schuldschein. These liabilities are recorded in the financial statements at their amortised cost which is determined after taking into account discount and transaction cost amortisation and payment of interest instalments to settle the liability arising on the sale of rights to receive interest on the Schuldschein, and fully secured on the Schuldschein described in note 3.

SERIES B EURO-DM SECURITIES LIMITED

7 IMMEDIATE AND ULTIMATE CONTROLLING PARTY

The immediate controlling party of the Company is Equiom Trust (CI) Limited (formally Lloyds Trust Company (Channel Islands) Limited), as trustee of a charitable trust, which is the beneficial owner of the issued shares. In the opinion of the trustee the ultimate controlling party is Commerzbank AG, a regulated German bank.

8 ADMINISTRATION EXPENSES

In accordance with an undertaking dated 2nd July 1986, the promoters of the issue of Zero Coupon Deutsche Mark bearer bonds described in note 3, have agreed to reimburse the Company for all expenses incurred. The expenses and the corresponding reimbursement are shown in the Statement of Comprehensive Income.

The Company engaged the services of Equiom Trust (CI) Limited for a fixed fee of \$10,000 per annum and an annual fee of \$3,000 for bookkeeping and accounting services, plus an interim fee of £2,000 for the production of interim financial statements plus disbursements.

Total administration and accounting fees for the year amounted to €12,000 (2014: €12,000).

9 TAXATION

The Company is taxed at the standard rate 0%. (2014:0%).

10 RELATED PARTY TRANSACTIONS

Parties are considered related if one party has ability to control the other party or exercise influence over the party in making financial or operational decisions. The following are considered by the directors of the Company to be related parties:

- Equiom Trust (CI) Limited as immediate controlling party of the Company.
- Commerzbank AG as the ultimate controlling party and paying agent of the Company.
- Equiom Trust (CI) Limited provided administrative and accountancy services for a fee of € 12,000 (2014 € 12,000) during the year.
- Commerzbank AG has reimbursed the Company for all administrative expenses for the year of € 27,000 (2014 - € 27,000).

The balance receivable from Commerzbank AG at 31 December 2015 is € 23,000 (2014 - € 23,000).

11 SUBSEQUENT EVENTS

Between the year end date and the date of signing the financial statements, the Schuldschein and Bonds have been redeemed and repaid, an orderly liquidation of the Company will now take place.
